COURSE DESCRIPTION

Your organization's ministry can be at risk of incurring a slip trip fall type claim. Approximately 1/3 of all liability claims and 1/3 of all workers compensation claims are the result of slip trip fall type incidents. These incidents can cause serious injuries, potential lawsuits and can ultimately affect an organization's bottom line. This workshop will incorporate risk management strategies and walk each attendee through a 51-page Slip trip Fall Prevention Resource Toolkit. The workshop will offer practical solutions on how best to prevent a slip trip fall type incident from occurring or reoccurring. Each attendee will receive a free electronic copy of the 51-page Slip Trip Fall Prevention Resource Toolkit that will be reviewed during the workshop.

LEARNING OBJECTIVES

At the end of this course, participants will be able to:

- 1. By the end of the program, participants will learn what should be incorporated in an overall slip trip fall prevention program whether it is for a small convent, large religious community or diocese, using examples and a toolkit.**
- 2. By the end of the program, participants will learn what types of safety policies can be utilized to help employees understand their responsibilities along with being accountable, using examples and a toolkit**

LEARNING OBJECTIVES CONTINUED

At the end of this course, participants will be able to:

- 3. By the end of the program, participants will learn how to utilize risk management best practices for areas such as common areas, dietary, egress routs, maintenance, housekeeping, offices, resident rooms, restrooms, parking lots, thrift stores, etc.; as well as how to customize and utilize an inspection program for nursing/infirmarary facilities, educational facilities, thrift stores/gift shops and bookstores for both inside and outside of the facility; using examples and a toolkit**
- 4. By the end of the program, participants will learn about key areas of investigating a slip trip fall type accident and how to utilize a Slip Trip and Fall Investigation Report, using examples and a toolkit.**

Thrift Stores / Gift Shops

A close-up photograph of a computer keyboard. The central focus is a red key with the word "TRAINING" printed in white, bold, sans-serif capital letters. The key is rectangular with rounded corners. Surrounding it are several white keys with black text. To the left of the red key is a white key with a question mark and a forward slash. Below that is a white key labeled "shift". To the right of the red key is a white key labeled "delete". Above the red key are several white keys, including one with a vertical line and another with a horizontal line. The keyboard has a dark grey or black frame, and the keys are arranged in a standard QWERTY layout. The lighting is even, highlighting the texture of the keys and the vibrant red of the central key.
